Hi Lorenzo,

I need to check with you on the sampling results for Liberty EC (PFAS & 1,4 dioxane). I triple checked our Equis data system here and the PFAS data has been loaded in from the 2018 sampling event (attached spreadsheet), but there is no submission for the 1,4 dioxane. When I went back to the report, I couldn't find the results. The trip report says that 1,4 dioxane was done however.

Could you check into it? If EAR did not get the results or did not submit them?

Thanks -Heather
